PROFILE

All-round IT specialist with over twenty years of experience in system and network administration, Microsoft 365, virtualisation, Linux hosting, web shops and SEO. Working with AI implementation every day since 2023: LLM integrations (Claude, GPT, Gemini), prompt engineering and automated content pipelines that measurably save time or generate revenue. Based in Orihuela (Alicante, Spain) and available remotely for Dutch, Belgian and European clients; on site by arrangement. Strong at translating technology into plain language, at working solutions rather than presentation slides, and at delivering projects independently from A to Z.

CORE COMPETENCIES

- Microsoft 365, Exchange, SharePoint, Windows Server 2003 through 2025, Active Directory
- Linux server administration and hardening (AlmaLinux, Debian, Ubuntu), WHM/cPanel, VPS hosting, backup & disaster recovery
- Virtualisation: VMware ESXi, Proxmox VE, Hyper-V; storage: Synology NAS
- Networking and security: Cisco (CCNA), Palo Alto, DrayTek, pfSense, Ubiquiti; VLAN, firewall, VPN
- Web shops and websites: PrestaShop, WordPress, Shopware, Joomla; Mollie payment integrations
- AI implementation: Claude, GPT and Gemini via API, prompt engineering, AI agents and content pipelines
- SEO/SEA: technical SEO, Core Web Vitals, structured data, Search Console, Merchant Center, Google Ads
- Full-stack: Next.js, TypeScript, Python (FastAPI), MySQL/SQLite; DTP: Adobe Illustrator and Photoshop
